

CLEAN ENERGY TRANSITION INVESTMENT FORUM

6 May 2026

EU Energy Efficiency
Financing Coalition

The clean energy transition is key for Europe's energy security, independence, and affordability. A series of transformative legislative measures have been adopted by the European Union to bring energy efficiency and clean energy solutions to every region, every business, and every citizen.

The **Clean Energy Transition Investment Forum (CETIF)** showcases initiatives that support the acceleration of investments on the ground. Across Europe, **cities, regions, businesses, financial institutions, citizens and communities are spearheading innovative projects and initiatives** that demonstrate tangible progress. Sharing this knowledge across the EU is essential for stakeholders to implement alternative pathways to transform and finance measures for an affordable, clean, and inclusive energy transition.

The CETIF provides a unique forum for the exchange of this knowledge. The uniqueness of the conference stems from the **showcasing of successful initiatives to finance sustainable energy and climate adaptation, presented in detail by practitioners to practitioners** in a line-up of parallel break-out sessions. Networking is key to the event, allowing participants to deepen their learning experience and arrange for actionable follow-up.

The CETIF 2026 is organised by the European Commission, in collaboration with the [European Energy Efficiency Financing Coalition](#) and the [EU Covenant of Mayors](#). It builds upon the successful previous editions of the [Covenant of Mayors Investment Forum](#), and the wealth of initiatives funded through EU programmes such as [LIFE Clean Energy Transition](#), [ELENA](#) and [InvestEU](#).

Location:

[Radisson Hotel](#), rue du Fossé aux Loups 47, Brussels

Registration:

Please register at <https://cetif-2026.euconf.eu>.

Draft agenda

9:00 Opening plenary:

The opening plenary will feature high-level speakers from the European Commission, the European Energy Efficiency Financing Coalition and representatives of local and regional authorities.

10:00 Coffee break

10:30 Parallel breakout sessions 1 and 2

Participants can attend sessions focused on a specific initiative, thus allowing a deep dive and exchanges with the entities leading each initiative.

Sessions are grouped under one of the following four parallel strands:

- **“Unlocking investments”** sessions look into how project development assistance can deliver large-scale investment pipelines
- **“Facilitation services”** sessions present how one-stop shops are established in different regions to support the renovation of residential and public buildings
- **“Attracting private finance”** sessions focus on how to increase investments from banks, investors and energy service companies into energy efficiency and renewables
- **“Empowering citizens and communities”** address the role of communities and public authorities in planning and developing investments for the clean energy transition

12:30 Lunch break

13:30 Parallel breakout sessions 3 and 4

15:30 Coffee break

16:00 Parallel breakout session 5

17:00 Closing plenary

18:00 Networking cocktail
